DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on the 4th of June 2009 has been entered.

Response to Arguments

2. Applicant's arguments, see Remarks pages 9 and 10, filed the 4th of June 2009, with respect to claims 32 and 44 have been fully considered and are persuasive. The rejection of the 4th of March 2009 has been withdrawn.

Allowable Subject Matter

3. Claims 32-38 and 40-46 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Regarding claims 32 and 44, the prior art fails to teach or reasonably suggest, along with *all* other claimed limitations a photoelectric converting element comprising: namely, a readout unit connected to said signal line, wherein the readout unit has an amplifier connected to the signal line; and a constant current source provided on said signal line at a position on said insulating supporting substrate, spaced from said readout unit rather than said pixel, and is formed by film formations, together with at least one of said photoelectric converting elements,

said resetting transistor and said readout transistor. For arguments see reason of record filed the 4th of June 2009, page 9 paragraphs 2-4 and page 10 paragraph 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
